## EDUCATION

Bachelor of Science in **Business Analytics**  
Brigham Young University – Idaho

Jan 2024 – Jan 2028  
Rexburg, ID

Courses Taken: **SQL** for Analysts, **Data Science**, Spreadsheet Analysis, **Power BI**, Statistics with R, and Intro to Databases

- **Power BI:** Presented to class clear performance metrics and actionable insights by **analyzing risk-to-reward ratios and return potentials** for over **1,000+ investment funds** and provided a recommended retirement portfolio using **Power Query transformations, DAX calculations, and AI-assisted optimization.**
- **Excel:** Delivered **20+ business-focused Excel projects** (each in under 24 hours) by leveraging **AI tools** with **VBA, XLOOKUP, PivotTables, Visuals**, and **advanced formulas** to automate processes and solve real-world business problems.

## PROFESSIONAL EXPERIENCE

### Data Science Intern

The Church of Jesus Christ of Latter-day Saints

Jan 2026 - Present  
Salt Lake City, UT

- **Engineered 10+ detailed Power BI reports** through advanced **semantic modeling** and table relationships, creating new **dataflows**, and implementing rigorous **data auditing** methods to ensure high data integrity.
- **Created 8+ Microsoft Power Automate flows** to ingest, parse, and transform datasets, saving countless hours by automating repetitive business tasks and dynamic reporting across Teams, Outlook, and SharePoint
- **Troubleshooted a critical data engineering failure** in vendor-supplied datasets by identifying a missing foreign key, collaborating with external partners to resolve the issue and facilitate performance reporting for North American teams.

### SQL Teaching Assistant

Brigham Young University – Idaho

Apr 2025 – Dec 2025  
Rexburg, ID

- **Improved the SQL proficiency of 30+ students** through individualized tutoring, emphasizing core concepts such as **JOINS, CTEs, window functions, CASE statements, and subqueries.**
- Redesigned and **modernized 4 exams and 14 assignments using AI tools** and query auditing to improve question clarity, query realism, and instructional consistency.

### Success Mentor and Survey Researcher

Brigham Young University – Idaho

Jan 2025 – Dec 2025  
Rexburg, ID

- **Increased data validation efficiency by 4x** (reduced 1 hour to 15 minutes) by utilizing **AI tools in Excel VBA** and developing an **analysis report** which automated error detection and reduced manual entry.
- **Achieved 98% satisfaction rating** across **375+ student appointments** by implementing excellent customer service skills, advising clear and reasonable solutions, and providing honest client feedback.
- Designed and presented **3 dynamic Power BI dashboards** with a Qualtrics survey created to measure student confidence, satisfaction, and appointment effectiveness to observe **key indicators and actionable insights.**

## TECHNICAL PROJECTS

- **Python Automation:** Engineered a pipeline that **scraped public metadata**, processed and reorganized movie folders, consolidated subtitles, validated file structures, and generated standardized assets showcasing skills Python scripting, web scraping, **ETL workflows, file I/O automation, and data processing.**
- **Hardware Investment Analysis:** Developed a dynamic **Excel profitability model** analyzing capital expenditure, operating costs (energy consumption), and output metrics (hash rates), successfully guiding the optimization of 3 computing rigs to achieve about **100% ROI in 12 months.**
